## Education

<b>KCC Institute of Technology &amp; Management, Greater Noida</b> Bachelor of Technology in Computer Science Engineering	2022 – 2026
<b>Apeejay School, Saket</b> Higher Secondary Education	2019 – 2021

## Skills

**Programming Languages & Databases:** Python, C/C++ , JavaScript, Java, SQL, MySQL

**Frameworks & Libraries:** HTML, CSS, Django, React, Next.js

**Technologies:** Git/GitHub, AWS, Linux, Windows, AI, Machine Learning

**Concepts:** Object-Oriented Programming (OOP), Problem-Solving, Debugging

## Experience

<b>Intern, HCL TECH</b>	Dec 2024 – Mar 2025
<ul style="list-style-type: none"><li>Completed an industry-focused program covering Java, Spring Boot, MySQL, HTML/CSS, and JavaScript</li><li>Integrated AI using machine learning APIs for hands-on experience</li><li>Developed scalable full-stack web applications using MVC architecture and Agile practices</li><li>Integrated intelligent features like recommendation systems and smart forms</li></ul>	
<b>Software Development Intern, INTERNSHIP STUDIO</b>	Mar 2024 – Apr 2024
<ul style="list-style-type: none"><li>Developed a high-performance C++ application focused on algorithmic efficiency and cloud scalability</li><li>Gained hands-on experience throughout the SDLC, deploying solutions on AWS</li><li>Utilised tools like Git, CI/CD, and Agile practices essential for modern software engineering</li></ul>	

## Projects

<b>KIRO   AI Assistant</b>	Jun 2024 – Current
<ul style="list-style-type: none"><li>Built an AI assistant chatbot system focusing on clean architecture and scalability</li><li>Developed the backend using Python with Pipenv for environment and dependency management</li><li>Designed and implemented RESTful API integrations with intelligent request handling</li><li>Established a modular code structure with thorough documentation for seamless integration</li></ul>	
<b>AKIRO - Adaptive Knowledgeable Innovative Responsive Omnipresent</b>	Sept 2025 – Nov 2025
<ul style="list-style-type: none"><li>Engineered a scalable full-stack automation system (AKIRO) to streamline workflows and boost efficiency.</li><li>Integrated smart data pipelines and real-time analytics to accelerate decision-making and reduce manual overhead.</li><li>Led full-cycle development using agile methods to deliver a high-impact, production-ready solution.</li></ul>	
<b>KRAZY NOTESY   Social Media Automater</b>	Jul 2025 – Aug 2025
<ul style="list-style-type: none"><li>Created a social media automation tool modelled after Twitter for auto-scheduling posts</li><li>Developed a Python automation script to upload photos and videos from a local folder to Instagram</li><li>Integrated AI-generated captions and hashtags to enhance engagement and visibility</li><li>Reduced manual effort and streamlined social media management through consistency of content posting</li></ul>
